

Technical Diver Internship II.

Now you're becoming a serious diver on me! This is for the hardcore technical divers. This Tec scuba diving internship course is great value as broken down the cost would almost be one third again, if not packaged this way. This will take you diving air, Nitrox and tri-mix (trimix), gas blends. Dive interns will be diving staged decompression dives to 55 metres on air and Nitrox, mixed gases. Staged decompression dives to 90 metres (YES 90 METRES!!!) using tri-mix. Not for the faint hearted - what a package this is! Training for this is held in Pattaya, Thailand at one of the most comprehensive and technically set up dive centers in Thailand.

Cost \$5500 - The package includes:

- 2 months accommodation. (Thai Style Condo - fully self contained).
- Five PADI Specialty Diver Courses (your choice out of over 23 available specialties).
- **PADI Master Scuba Diver Rating.**
- Technical diving courses including: Nitrox Diver, Advanced Nitrox Diver and Decompression Procedures.
- Technical diving courses including: Extended Range, Basic Trimix and Advanced Trimix Diver.
- Rental of all necessary technical and/or recreational diving equipment for the duration of the program.
- Qualification to do stage decompression diving to a depth of 55 meters using Air/Nitrox.
- Qualification to do staged decompression diving to a depth of 90 meters using Tri-mix .
- All required books, manuals, tables and slates needed for the courses.
- All required training agency fees.
- Additional dives for experience and pleasure.

To join our Technical Diver internships program all you need to do is [mail me](#) for a consultation.

Please NOTE: In order to join the technical internship you need to be a certified diver of Open Water or higher. If you do not possess any diving license then we can still accept you as an intern and train you to Open Water first. The additional cost for this is \$300.
